E. AMO Operating Rules

Content requirements for AMO Operating Rules

F. Provision of information

Information which AMOs must provide

G. Default management

Each Standard is accompanied by a brief statement of the reason for its inclusion in this document. Those reasons, and this Preamble, are provided for the assistance of the reader and do not form part of the Standards.

	Standard	Reason for inclusion
	<p><i>Note: In accordance with Standard 7, the CS Entities may reject a Trade Registration Request Message Transmitted by an AMO outside of Operating Hours, even if the Trade to which the Message relates was executed on the AMO's trading platform or reported to the AMO during Operating Hours and the Message was Transmitted within the timeframe specified in paragraph (a) above.</i></p> <p>Compliance by an AMO with these time limits for the Transmission of a Valid Trade Registration Request Message will be determined by the CS Entities in their absolute discretion by reference to:</p> <p>(a) the Trade execution time specified by the AMO in the Trade Registration Request Message; and</p> <p>(b) the time of Transmission of the Trade Registration Request Message, as recorded in CHESSE.</p>

Except in the event of technical failure affecting the CS Systems, the CS Entities will use reasonable endeavours to give the AMO prior notice of a suspension of processing of Messages. 	with the submission of Trades by alternative means. The AMO must promptly respond to any requests for information which the CS Entities may require to assist in managing the impact of the technical outage on the CS Facilities.	
14	<p>A Trade Registration Request Message Transmitted by an AMO must specify a Delivering UIC and a Receiving UIC for Clearing Participants (or a Clearing Participant) which are (is) authorised under the ASX Clear Operating Rules to clear:</p> <p>(a) Trades submitted by the AMO; and</p> <p>(b) the Eligible Financial Product Class to which the Trade relates,</p> <p>at the time of Validation of the Message.</p>	A Trade can be accepted into the CS Facilities only if Clearing Participants authorised to clear the Trade are accountable in respect of it.
15	An AMO must not Transmit a Trade Registration Request Message which specifies a Delivering UIC or a Receiving UIC for a Clearing Participant unless the AMO has satisfied itself on reasonable grounds that the Clearing Participant has agreed to clear the Trade to which the Message relates. 21	A Trade Registration Request Message Transmitted by an AMO must relate to no more than one Trade. 23	The CS Entities will not act upon any instructions from an AMO to cancel a Valid Trade Registration Request Message (Original Message) once the Original Message has been Transmitted to the CS Entities unless such instructions are Transmitted to the CS Entities in the form of a further Valid Message or Valid Messages that when processed will have the effect of cancelling the Original Message. Such instructions must be Transmitted to the CS Entities by the End of Day on the Business Day following the Trade Date specified in the Original Message (or, where an "As At Date" is specified in the Original Message, by the End of Day on the Trade Date). The AMO is responsible for effecting any disclosure required of the AMO by law of the cancellation of the Trade to which the Original Message relates.	Standard operating process.
<i>D. Communications and access to CS Systems</i>		
24	An AMO must comply with the AMO EIS.	Standard operating process.
25	An AMO must observe and comply with Section 16 of the ASX Settlement Operating Rules as though it is a "Facility User" within the meaning of those rules.	Standard operating process.
26	An AMO must ensure that its actions do not adversely impact on the efficiency and integrity of the CS Facilities or the proper functioning of the CS Systems.	Operational risk mitigation.

	Standard	Reason for inclusion

28	<p>The Operating Rules of an AMO must require AMO Participants to report promptly to the AMO any Trade which is executed by the AMO Participant "off market" and reportable to the AMO under those rules.</p> <p><i>Note: This Standard does not apply if and for so long as the ASIC Market Integrity Rules (Competition in Exchange Markets) 2011 impose trade reporting obligations on participants in financial markets.</i></p>	<ul style="list-style-type: none"> • Ensures contemporary overview of the Trades to which ASX Clear is central counterparty, thereby enabling ASX Clear to accurately measure, and where appropriate mitigate, its counterparty exposure on an intraday basis. • Promotes transparency of inputs to Batch Settlement and prompt identification of potential errors. • Mitigates operational risk.
29	<p>The Operating Rules of an AMO must expressly authorise the AMO to disclose to the CS Entities any information which the AMO is required to disclose to the CS Entities under these Standards.</p>	Legal risk mitigation.

31	<p>The Operating Rules of an AMO must:</p> <ul style="list-style-type: none"> (a) require every AMO Participant to maintain adequate arrangements for the clearing and settlement of all Trades entered into by the AMO Participant through the trade facility operated by the AMO; and (b) provide that, or make provision to the effect that, if ASX Clear or a Clearing Participant notifies the AMO that the Clearing Participant intends to terminate its Clearing Agreement with an AMO Participant, the AMO will not submit to the CS Facilities for clearing in the name of the Clearing Participant any Trade executed by the AMO Participant on the AMO's trading platform or reported by the AMO Participant to the AMO at or after the effective time of termination of the Clearing Agreement as notified to the AMO by ASX Clear or the Clearing Participant. <p>An AMO must act in accordance with any notification received from ASX Clear or a Clearing Participant as described in paragraph (b).</p>	Facilitates counterparty risk management by Clearing Participants.

	Standard	Reason for inclusion
<i>F. Provision of information</i>		
32	An AMO must Transmit a Valid Price Registration Notification Message to the CS Entities by 6:00pm on each Business Day.	Enables accurate ASX Clear counterparty credit risk estimation.
33	An AMO must license to ASX Clear, on reasonable commercial terms and at no cost to ASX Clear, such real time, delayed or historical market data relating to the trade facility operated by the AMO as ASX Clear may from time to time reasonably request for the purpose of discharging its functions as a central counterparty and complying with its obligations as the holder of a CS facility license. The AMO must provide the data in a format acceptable to ASX Clear (acting reasonably).	Addresses potential need to reference prices on AMOs other than ASX in order to calculate prices used for central counterparty (ASX Clear) risk management purposes.
34	An AMO must notify the CS Entities promptly in writing of any fine, warning, licence condition or other disciplinary sanction imposed or disciplinary action taken by a regulatory body on or with respect to the AMO. The notice must be accompanied by a reasonably detailed explanation of the impact (if any) of the regulatory action on the AMO's ability to comply with these Standards. 37	<p>If the CS Entities notify an AMO of:</p> <p>(a) the occurrence of an event of default under ASX Clear Operating Rule 15.1.1 or an Event of Non-Compliance under ASX Settlement Operating Rule 12.18.1 (as applicable) by a Participant in either of the CS Facilities; or</p> <p>(b) any change in, or condition or restriction placed on, the clearing permissions of a Clearing Participant,</p> <p>the AMO must immediately notify AMO Participants that clear through that Participant and take steps to enforce the requirement under the AMO's Operating Rules for all AMO Participants to maintain adequate clearing and settlement arrangements.</p> <p>The CS Entities do not undertake to notify the AMO of any of such event(s).</p>	Operational and counterparty risk mitigation.
