

ASX24 Grain Futures: Delivery of Grain

Delivery Period

ASX Grain Futures may be delivered on any day of the Delivery period. The Delivery period commences on the second business day of the Delivery month and concludes on the 3rd Thursday of the Delivery month.

Participants holding short futures positions in the expiring contract and wish to deliver a grain futures contract must submit a Tender Request form on any day during the delivery period, by 12pm on the day of tender to ASX Clear (Futures).

On the Final Trading day, the Tender Request form must be submitted by 3pm.

Participants holding long futures positions in the expiring contract may receive delivery of physical grain on any business day of the Delivery period.

Tender

The Participant holding a short position, intending to deliver, must specify the following information on the Tender request form:

Contract:			
Account	Deposit ID	Lots	Tonnes

Contract	1 Tender request form must be submitted per contract
Account	Secure account of the position to be tendered
Deposit ID	The Deposit ID of the Grain holding being tendered
Lots	Futures lots being tendered
Tonnes	Tonnes being tendered per Deposit ID

Once the Tender request has been processed, the Participant will be able to view the details on the [Depository Holdings Activity Listing](#) report.

A pdf report and xml file for both the [Depository Holdings Activity Listing](#) report will be distributed via NOMX Secure at:

During Delivery period month:

- Intraday 10am, 11am, 12pm, 1pm, 2pm and 3pm; and
- End of Day

During Non-Delivery period month:

- End of Day

N	THE GUMS	TT012076	Seller - Tender Initiated

Ending Position Confirmation

Participants holding an open position in expiring Grain Futures contracts must complete allocation of trades and submit an Ending Position Confirmation form by 5pm on each day of the Delivery period.

The Ending Position Confirmation form confirms the open position per contract per Secure account, and provides holders of Long Positions with the ability to split the full open position into underlying client parcels.

Contract:			
Account	Ending Short	Ending Long	Client Reference

Random Allocation and Delivery Notification

After 5pm, a random allocation will be performed to match tendered Short positions against open Long positions.

Participants who have taken or received delivery of ASX24 Grain Futures positions will receive a closing trade in the deliverable contract in NOMX Secure, and an opening trade in the tendered contract following the random allocation. Open Short Positions in the Tendered contracts will equal the total contracts being tendered in ASX24 Grain Futures for that day.

Open Long Positions in the Tendered contracts will equal the total contracts being delivered against in ASX24 Grain Futures for that day.

Contract Mapping:

Contract Description	Deliverable Contract	Tendered Contract
East Aust Feed Barley	UB	KB
Australian Sorghum	US	KS
Eastern Aust Canola	VC	KC
NSW Wheat	VW	KW
WA Wheat	WK	KK

Tender advices and Tender summaries will be available for download via NOMX Secure from 5.30pm. The Tender advice and summary will detail all aspects of the Futures contract and physical grain being delivered per Deposit ID.

The Delivery summary will provide summary details of all deliveries for the clearing day for the Participant.
