### Present Application

ASIC Class Order 09/425 contemplates issue of not more than \$15,000 worth of securities under a share purchase plan in a 12 month period without a prospectus - in last 12 months Company has already issued \$5,000 worth of securities to holders under an SPP - proposed SPP to be capped at \$5,000 per holder in order not to exceed \$15,000 - all security holders able to participate on equal terms - proposed terms of SPP such that pricing may mean that the Company does not have the benefit of exception 15 of listing rule 7.2 - the pricing of the shares under the SPP will be the lower of the price of the placement, or at 80% of the Company's average share price over the last 5 trading days before the day on which the issue is made under the SPP - exception 15 of listing rule 7.2 requires that the issue price be no lower than 80% of the 5 day market price prior to the date of issue of the securities or the announcement of SPP - in the interests of fairness, smaller holders to receive securities at same price as participants in placement - overall cap of 30% of issued capital must still be observed to limit dilution - 30% limit based on the number of securities on issue at the record date of the previous SPP.

<b>Decision</b>	<p>Based solely on the information provided, ASX Limited ("ASX") grants YTC Resources Limited (the "Company") a waiver from listing rules 7.1 and 10.11 to the extent necessary to permit the Company, to issue securities under a Share Purchase Plan in accordance with Australian Securities and Investments Commission Class Order 09/425 pursuant to which each shareholder (including related parties) will be offered up to \$15,000 worth of securities (the "SPP") on the following conditions.</p> <p>1. The issue price at which the securities are offered is at least the lower of the following.</p> <p>1.1. The price of the securities issued under the proposed placement announced by the Company on 28 August 2009.</p> <p>1.2 80% of the Company's average share price over the last 5 trading days on which sales in the Company's shares were recorded either before the day on which the issue was first announced or before the day on which the issue is made under the SPP.</p> <p>2. The number of securities to be issued under the SPP is not greater than 30% of the number of fully paid ordinary securities already on issue.</p>
<b>Basis For Decision</b>	<p><b>Underlying Policy</b> Requirement to obtain approval of security holders to an issue of securities to related parties - directed at preventing related parties obtaining securities on advantageous terms and increasing their holding proportionate to other holdings - only un-associated security holders' votes are counted - protect security holders' interests by supplementing the related party provisions of the Corporations Act (and whatever related party provisions apply to foreign entities).</p> <p><b>Present Application</b> ASIC class order 09/425 contemplates issue of not more than \$15,000 worth of securities under a security purchase Plan without a prospectus - all security holders able to participate on equal terms - proposed terms of SPP such that pricing may mean that the Company does not have the benefit of exception 8 of listing rule 10.12 - the pricing of the securities under the SPP proposed to be the placement price, or at least 80% of the Company's average share price over the last 5 trading days before the day on which the issue under the SPP is announced or made - exception 8 of listing rule 10.12 requires that the issue price be no lower than 80% of the 5 day market price prior to the date of issue of the securities or the announcement of SPP - listing rule 10.12 exception 8 intended to permit director participation in Share Purchase Plan - overall cap of 30% of issued capital must still be observed to limit dilution - Share Purchase Plan within spirit of the exception.</p>
